

TAMS Version R12 Installation

- 1) Go to the following url: <https://ebs.tulane.edu>
- 2) The Login page will appear; sign in using your Single Sign On (SSO) credentials

The screenshot shows the Oracle E-Business Suite AccessGate login interface. At the top, the Oracle logo is followed by "E-Business Suite AccessGate". Below this is a "Login" section. A prompt says "Enter your Single Sign-On user name and password." There are two input fields: "User Name" with the text "jdoe" and "Password" with masked characters. Below the password field are "Login" and "Cancel" buttons. At the bottom left, it says "Oracle E-Business Suite AccessGate 1.1".

- 3) When you choose a function under your Responsibility, you will be prompted to install Java if you do not already have it installed; if you do already have Java installed, no further installation action is required

- 4) If you do not have Java installed, the following prompt will appear; click the Install button

- 5) After clicking the Install button, the prompt may disappear
- 6) If the prompt disappears, once again, choose a function under your Responsibility (this is the process that initiates Java)
- 7) When the Java Setup box appears, click the Accept button

- 8) Once the installation process completes, a dialogue box will appear letting you know that the installation was successful; click the Finish button

- 9) Now, when you choose a function under a Responsibility, Java will initiate and allow TAMS to successfully open
